New characters include the New Face Team, the Fatal Fury Outlaw Team (featuring the KOF debut of Blue Mary Ryan and Ryuji Yamazaki, and the return of Billy Kane), and Kyos pupil Shingo Yabuki.. Before the game was released SNK held a contest in Japan to select one lucky girl who would voice Kyos girlfriend: Yuki.. Gameplay is much more plot-driven, as you have middle-bosses that can change depending on what team you select.. The contest lasted a whole day and included talent events and stuff like that Now, where in the hell can you find Yuki in the game talking In the special ending you get if you play with the Weapons of God team (Kyo, Iori and Kagura) She appears in a bw picture at the end and says a line.

Extra Mode is the typical AOF KOF scheme, in which your power gauge fills up as you defend yourself or charge yourself up.. Additions this year come in the form of slightly improved graphics and sounds, new moves and a new game mode.. The new Advanced Mode, on the other hand, only allows you to charge your gauge as you perform special moves and attacks, similar to the Street Fighter series.
